APPLIED ENVIRONMENTAL RESEARCH

RESEARCH ARTICLES

- | | |
|---|-------|
| Manganese Removal from Aqueous Solution by Ozonation Process
Designed by Box-Behken Design | 1-10 |
| Sunisa Jongdee, Tinnakorn Kumsaen, Kitirote Wantala | |
| Potential of Using Surfactants to Enhance Ammonium and
Nitrate Adsorption on Rice Husk and Its Biochar | 11-22 |
| Lada Mathurasa, Seelawut Damrongsiri | |
| Prevalence of Fatigue and Its Determinants among Chemical Transportation
Drivers in Chonburi | 23-32 |
| Sujee Phatrabuddha, Thitima Wonginta, Nantaporn Phatrabuddha | |
| The Utilization of Cashew Shell Residues and Grease Waste
for Charcoal Briquette Production | 33-40 |
| Supaporn Pongthornpruek | |
| Assessment of Water Usage and Water Management
in Mae Fah Luang University | 41-47 |
| Yanasinee Suma, Nittaya Pasukphun, Anuttara Hongthong, Vivat Keawdoungek | |
| Land–Water–Population Model: Developing an Agricultural
Resources Management in the Upper Part of Pranburi Watershed | 49-64 |
| Jirattinart Thungngern, Thavivongse Sriburi, Saowanee Wijitkosum | |
| Comparison of CO₂ Emissions from Vehicles in Thailand | 65-74 |
| Sutthicha Nilrit, Pantawat Sampanpanish, Surat Bualert | |
| Treatment of Piggery Wastewater by Three Grass Species Growing
in a Constructed Wetland | 75-83 |
| Supaporn Pongthornpruek | |

Production of this printed book helps reducing global warming effect by 100%
compensating the amount of greenhouse gases emissions
