Lighter Than 1 Lb.

An ultra-thin build with a comfortable design makes this tablet difficult to put down. Lightweight and perfect for travel, it connects seamlessly with other Galaxy products for you to effortlessly share photos and videos from wherever you are.

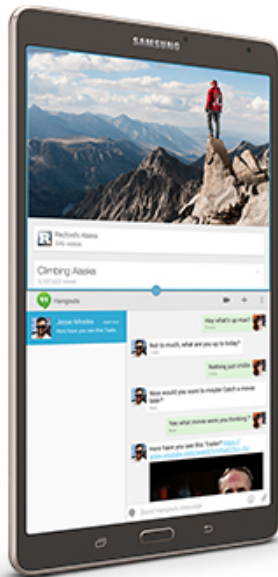

Family-Friendly

With Multi User Mode, everyone in the family can create a private and personalized tablet experience that can be secured with the fingerprint scanner. And for those wanting to keep the little ones entertained, Kids Mode lets you customize playtime and apps with parental controls.

Security at Your Fingertips

Unlock your tablet and keep your photos, videos, and personal files secure with just the swipe of your finger.

More Productive Than Ever

Now you can do two things at once with Multi-window, like watch a music video and look up the lyrics or read an email and edit a presentation. Opening two windows or apps at the same time gives you the ability multitask and get things done faster than ever before.**

Low Battery? No Problem.

Ultra Power Saving Mode keeps you connected even when your battery is critically low. It works by turning your screen to black and white and shuts off nonessential apps, so your device still works when you need it most.

Magazines Come to Life

Flip through your favorite sports, fashion and news magazines in Papergarden. You'll easily navigate through your favorite reads and see everything at a resolution that's optimized for your Galaxy Tab® S screen—so photography looks stunning and text is easy to read.

This is by far the best tablet I have had the pleasure to work with. The screen is amazing by far the best, thec Octa 5 performs so well its unreal! Samsung has hit it out of the park yet again!

Purchased two weeks ago and thus far I love this device. The screen is first rate and the sound is better than I thought possible for a tablet. You can't go wrong.

Mandowind on August 11, 2014

This tablet is as good as advertised. It is everything I hoped for and the resolution is even more stunning than I expected. The performance is great, I haven't experienced any lags or performance issues and the multi-window function is a useful feature. It is slim, light and the size and form factor works very well for me. An exceptional tablet, I would highly recommend it to anyone.
